

A STATE-OF-THE-ART FACILITY MEANS STATE-OF-THE-ART EC&N

Picoma's recent EC&N facility upgrades mean even better products, delivered even faster. Our Cambridge, Ohio, facility now uses new robotic technology that increases productivity, improves product quality, shortens lead times and improves operational safety. Threading, tapping and bending processes have been streamlined for increased efficiency, and our new equipment gives our EC&N tighter tolerances and less variation. Better facility. Better products. Win-win.

A ZEKELMAN COMPANY

SUPPORTING OUR WORKERS. SUPPORTING OUR COMMUNITIES.

Picoma's upgraded EC&N facility is a collaborative environment that utilizes the skills and strengths of both humans and robots. Incorporating robots opens up new opportunities for millworkers to advance their skill sets and their careers. When you purchase EC&N from Picoma, you support the millworkers who work hard to ensure you get the best products available.
