

PICOMA EC&N
**PROUDLY MADE &
MELTED IN THE**

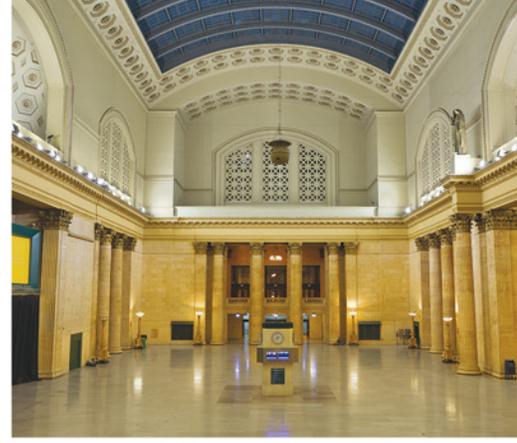

**EC&N made at our highly automated
state-of-the-art facility in the USA**

Need elbows, couplings and nipples (EC&N) for projects that require domestic materials? Make sure they're from Picoma. Some suppliers import their EC&N or only finish them here. But Picoma's EC&N are always 100% made and melted in the USA. For over 65 years, we've produced North America's best-in-class elbows, couplings and nipples for electrical conduit applications.
