

MADE AND MELTED IN AMERICA

Picoma's steel and aluminum elbows, couplings and nipples (EC&N) are manufactured by American steelworkers in state-of-the art facilities, ensuring every product is made to the highest quality standards. When you work with Picoma you'll always receive defect-free, corrosion-resistant products that are made to last. Plus, all Picoma products are designed to help you complete projects faster and easier.

- ✓ Readily available products and custom orders
- ✓ Efficiently work around obstacles
- ✓ Install in half the time
